Skilled and detail-oriented frontend developer with 5 years of experience building responsive, high-performance web applications. Proficient in modern JavaScript frameworks including React, Vue, Next.js, and Nuxt.js, with a strong focus on user experience and maintainable code. Proven ability to integrate seamlessly with backend APIs, optimize performance, and collaborate in cross-functional teams to deliver scalable, production-ready applications.

Experience

RCTI+ | Frontend Developer

Jakarta | 06. 2025 - 12.2025

- Developed and maintained websites with Next.js, Typescript, alongside other libraries (Tailwind, Tanstack Query) used for support purposes.
- Collaborated with backend developers to design and consume custom endpoints, optimizing API responses for frontend performance.
- Worked closely with the project management and product teams to understand requirements, provide technical insights, and deliver solutions that meet business objectives.
- Identified logic bugs early during development, executed debugging & profiling, and proposed improvements / refactors to enhance code quality, reliability, and maintainability.

Lintasarta | Frontend Developer

Jakarta | 01. 2025 - 05.2025

- Developed e-commerce websites and cms with React js, Next.js, Typescript, and state management library (Jotai) , alongside other libraries (Tailwind, Tanstack Query, Tanstack Router) used for support purposes.
- Collaborated with backend developers to design and consume custom endpoints, optimizing API responses for frontend performance.
- Worked in tandem with UI/UX teams to ensure high-quality user experiences and consistent design implementation.
- Worked closely with the project management and product teams to understand requirements, provide technical insights, and deliver solutions that meet business objectives.

PT Inkor | Frontend Developer

Jakarta | 07. 2024 - 12.2024

- Developed and maintained websites with React js, Next.js, Typescript, and state management library (Redux) , alongside other libraries (Tailwind, Tanstack Query) used for support purposes.
- Implemented essential UI elements, ensuring smooth API integration and enhancing user experience.
- Worked closely with the project management and product teams to understand requirements, provide technical insights, and deliver solutions that meet business objectives.

PT Komunitas Anak Bangsa | Frontend Developer

Jakarta | 01. 2020 - 07. 2024

- Developed and maintained social media, cms websites with React js, Vue.js, Quasar, Nuxt.js, Next Js, Typescript, and state management library (Vuex, Pinia) , alongside other libraries (Vuetify, Tailwind) used for support purposes.
- Collaborated with backend developers to design and consume custom endpoints, optimizing API responses for frontend performance.
- Transformed UI/UX mockups into interactive components while maintaining design integrity and accessibility.
- Refactor deprecated code
- Worked closely with the project management and product teams to understand requirements, provide technical insights, and deliver solutions that meet business objectives.

Monggopesen | Frontend Developer

Jakarta | 01. 2019 - 01.2020

- Developed and maintained websites with React js, Vue.js, and state management library (Vuex, Redux) , alongside other libraries (Ant Design) used for support purposes.
- Integrating API with backend.

PT Qbit | Full Stack Developer

Jakarta | 07. 2018 - 01. 2019

- Developed and maintained websites with React js, Vue.js, Quasar, Sequelize, Express and state management library (Vuex, Redux) , alongside other libraries (Vuetify) used for support purposes.
- Worked closely with the project management and product teams to understand requirements, provide technical insights, and deliver solutions that meet business objectives.
